-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of applicant's request for reconsideration filed 01/25/05.

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Election/Restrictions

Applicant's election with traverse of Group 1, claims 1-28 is acknowledged. The traversal is on the grounds that the claims in Groups 1-111 are related, as the product of claims 1-28 can be made by the process of claims 29-52 using the apparatus of claims 53-62. This is not found persuasive because, as Applicant agrees in the traverse, the product claimed in Group 1 can be made by a process other than the process claimed in Group 11 (the laser interference process).

Newly submitted claims 63-72 are directed to inventions that are independent or distinct from the invention originally claimed for the following reasons: claims 63-68 are directed to products comprising a pattern produced by laser light and claims 69-72 are drawn to a method of producing an optical pattern. The product of Group I can be made by a process other than the laser interference process, thus claims 63-72 are distinct from the invention elected by Applicant.

Accordingly, claims 1-28 will be examined in this office action. Claims 29-72 are withdrawn from consideration as being directed to a non-elected invention.

The requirement is still deemed proper and is therefore made FINAL.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 06/18/04 was filed after the mailing date of the non-Final Office Action on 03/10/04. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-28 rejected under 35 U.S.C. 102(b) as being anticipated by Reif US 4,031,200.

Reif teaches a pharmaceutical dosage forms comprising an edible web or paper and/or polymeric materials having deposited thereon a particulate medicament, the webs being thereafter fabricated and finished to pharmaceutically elegant solid dosage forms, such as tablet or capsule (see abstract, column 3, lines 14-36). The web comprises mixture of film-forming compounds, or fibrous ingredient ((column 7, lines 29-67). Further, the composition comprises plasticizer, and one or more modifying ingredients (column 8, lines 1-52; and column 8, line 55 through column 9, lines 1-17).
